### PROFILE SUMMARY

As a student of computer science with a solid background in Java, Python, HTML, CSS, PHP, Flutter, and JavaScript, I am actively looking for an internship opportunity to make the most of my abilities and obtain useful business experience. I have practical knowledge in software development, web development, and mobile app development. I am excited to put my capacity for problem solving, meticulousness, and teamwork to use while also learning about cutting-edge technologies like machine learning, web development, and database management.

**KG REDDY COLLEGE**
  - B.Tech-CSE(Data Science)

2007 - 2021  
**LITTLE FLOWER SCHOOL**
  - L.K.G to 12th-ISC
  - GPA: 74%

### SKILLS

- Project Management
- Programming
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

### LANGUAGES

- English: Fluent
- Hindi: Fluent

### WORK EXPERIENCE

- Quad Btech** 2025- PRESENT  
Full Stack Developer
  - Experienced in developing mobile apps with Flutter and building two websites using React.js and Next.js, demonstrating skills in modern front-end technologies and UI/UX principles; currently employed as an intern, actively contributing to projects and showcasing adaptability in learning new frameworks within a collaborative team environment.

**Tech Web Labs** 2024  
Full Stack Developer
  - During a mobile app development internship, I gained hands-on experience developing mobile applications using the Flutter framework and Dart language. This involved contributing to the full lifecycle of app development, implementing user interfaces and functionalities for cross-platform applications, and collaborating within a team environment. I applied UI/UX principles to create user-friendly mobile experiences and participated in testing and debugging processes, leveraging various libraries and APIs within the Flutter ecosystem.

- Built-In Tech** 2023  
Flutter Developer
  - I worked with others on a variety of projects, demonstrated my skill in creating cross-platform mobile applications, and helped deliver many applications successfully
